

Wren's Nest Eco-Schools Action Plan

Topic	Action What are we going to do?	Target / Measure What will improve as a result?	When will it be finished by?	Who is responsible?	Result achieved / Impact Date achieved
ENERGY	Make sure the outside doors are closed, especially through the winter	Keep the school warmer and stop the heat being wasted	As soon as everyone knows	Everyone	Use less energy - heating bills will be less.
ENERGY	Switch off all electrical items that are not used at the end of the day - especially computers and whiteboards	Use less electricity	End of Autumn term 2009	Everyone	Use less energy - electric bill will be less.
LITTER	Involve parents in helping to stop litter	Reduce litter at the school gate and in the community	End of summer term 2010	Everyone & parents	Less litter at the school gate and on the estate
LITTER	Write a litter policy	Reduce litter at the school gate and in the community and everyone knows their responsibility	End of spring term 2010	Everyone & parents	Less litter at the school gate and on the estate

WATER	Every class to have a watering can to store water that is to be reused from water bottles	Save water by not tipping it down the drain and wasting it.	End of spring term 2010	Everyone	Use less water - reduce the water bill
BIODIVERSITY	Develop a vegetable patch	Learn how to grow our own vegetables and grow them to eat and sell	End of summer term 2010	Everyone	Provide ourselves and other people on the estate with food
BIODIVERSITY	Develop the nature area - create a log pile for mini beasts/plant some trees that attract butterflies/put up bird feeders and bird boxes	Increase the wildlife and plantlife around school. Children will identify the wildlife around the school.	End of summer term 2010	Everyone	More wildlife attracted to the school - better biodiversity
SCHOOL GROUNDS	Improve the school grounds by planting more trees	Plant trees around the school to watch them grow over a long period of time	End of summer term 2010	Everyone	More trees to improve the school and improve the air quality in and around the school and community

Date Action Plan was developed:

18th November 2009
